

■通信プロトコル

◇COMport Setting

Baud Rate = 19200

Data Bits = 8

Parity = None

Stop Bits = 1

◇Command

Message Format = ASCII

◇Write

1. Set Mode

Command = @xSM {Z}

x = Channel Number (1-4)

Z = Constant / Strobe (Constant = 0, Strobe = 1)

2. Set Intensity

Command = @xSI{ZZZ}

x = Channel number (1-4)

ZZZ = Intensity (0-255)

**Return Message = Write Message

◇Read

1. Read Mode

Command = @xRM{}

x = Channel number (1-4)

Return Message

Y = Constant / Strobe (Constant = 0, Strobe = 1)

2. Read Intensity

Command = @xRI{}

x = Channel number (1-4)

Return Message

YYY = Intensity (0-255)
